Driver's Education & Behind-the-Wheel Training

Mt. SAC offers a driver training classroom and behind-the-wheel program that meets DMV requirements for provisional licenses (16 - 18 years of age). The instruction is by a DMV licensed driving instructor. This Defensive Driving Program is geared toward safety at all times.

Classroom Session

The 30-hour classroom course includes the same text and materials used in public high schools and taught by local high school teachers. Current videos will also be included in the learning experience as well as new state laws that students need to know in order to pass the permit and driving tests.

Behind-the-Wheel Session

This portion of the driver's training class is offered to meet California code and DMV requirements.

- 12 hours of in-the-vehicle training. Students will have at least one other student in the car and will take turns being instructed—six hours of driving and six hours of observing.
- Students will be issued a Certificate of Completion of Laboratory Driver's Education upon completion of the in-car training.

Registration must be completed in person. At that time, the student's parent/guardian will complete the *Parent/Guardian Medical Release Form*. Pre-registration is required for this class, with payment due at the time of registration. Upon successful completion, the student will receive the proper DMV-approved certificates. Behind-the-wheel training will be arranged the last day of classroom instruction.
